BUILT TO LAST

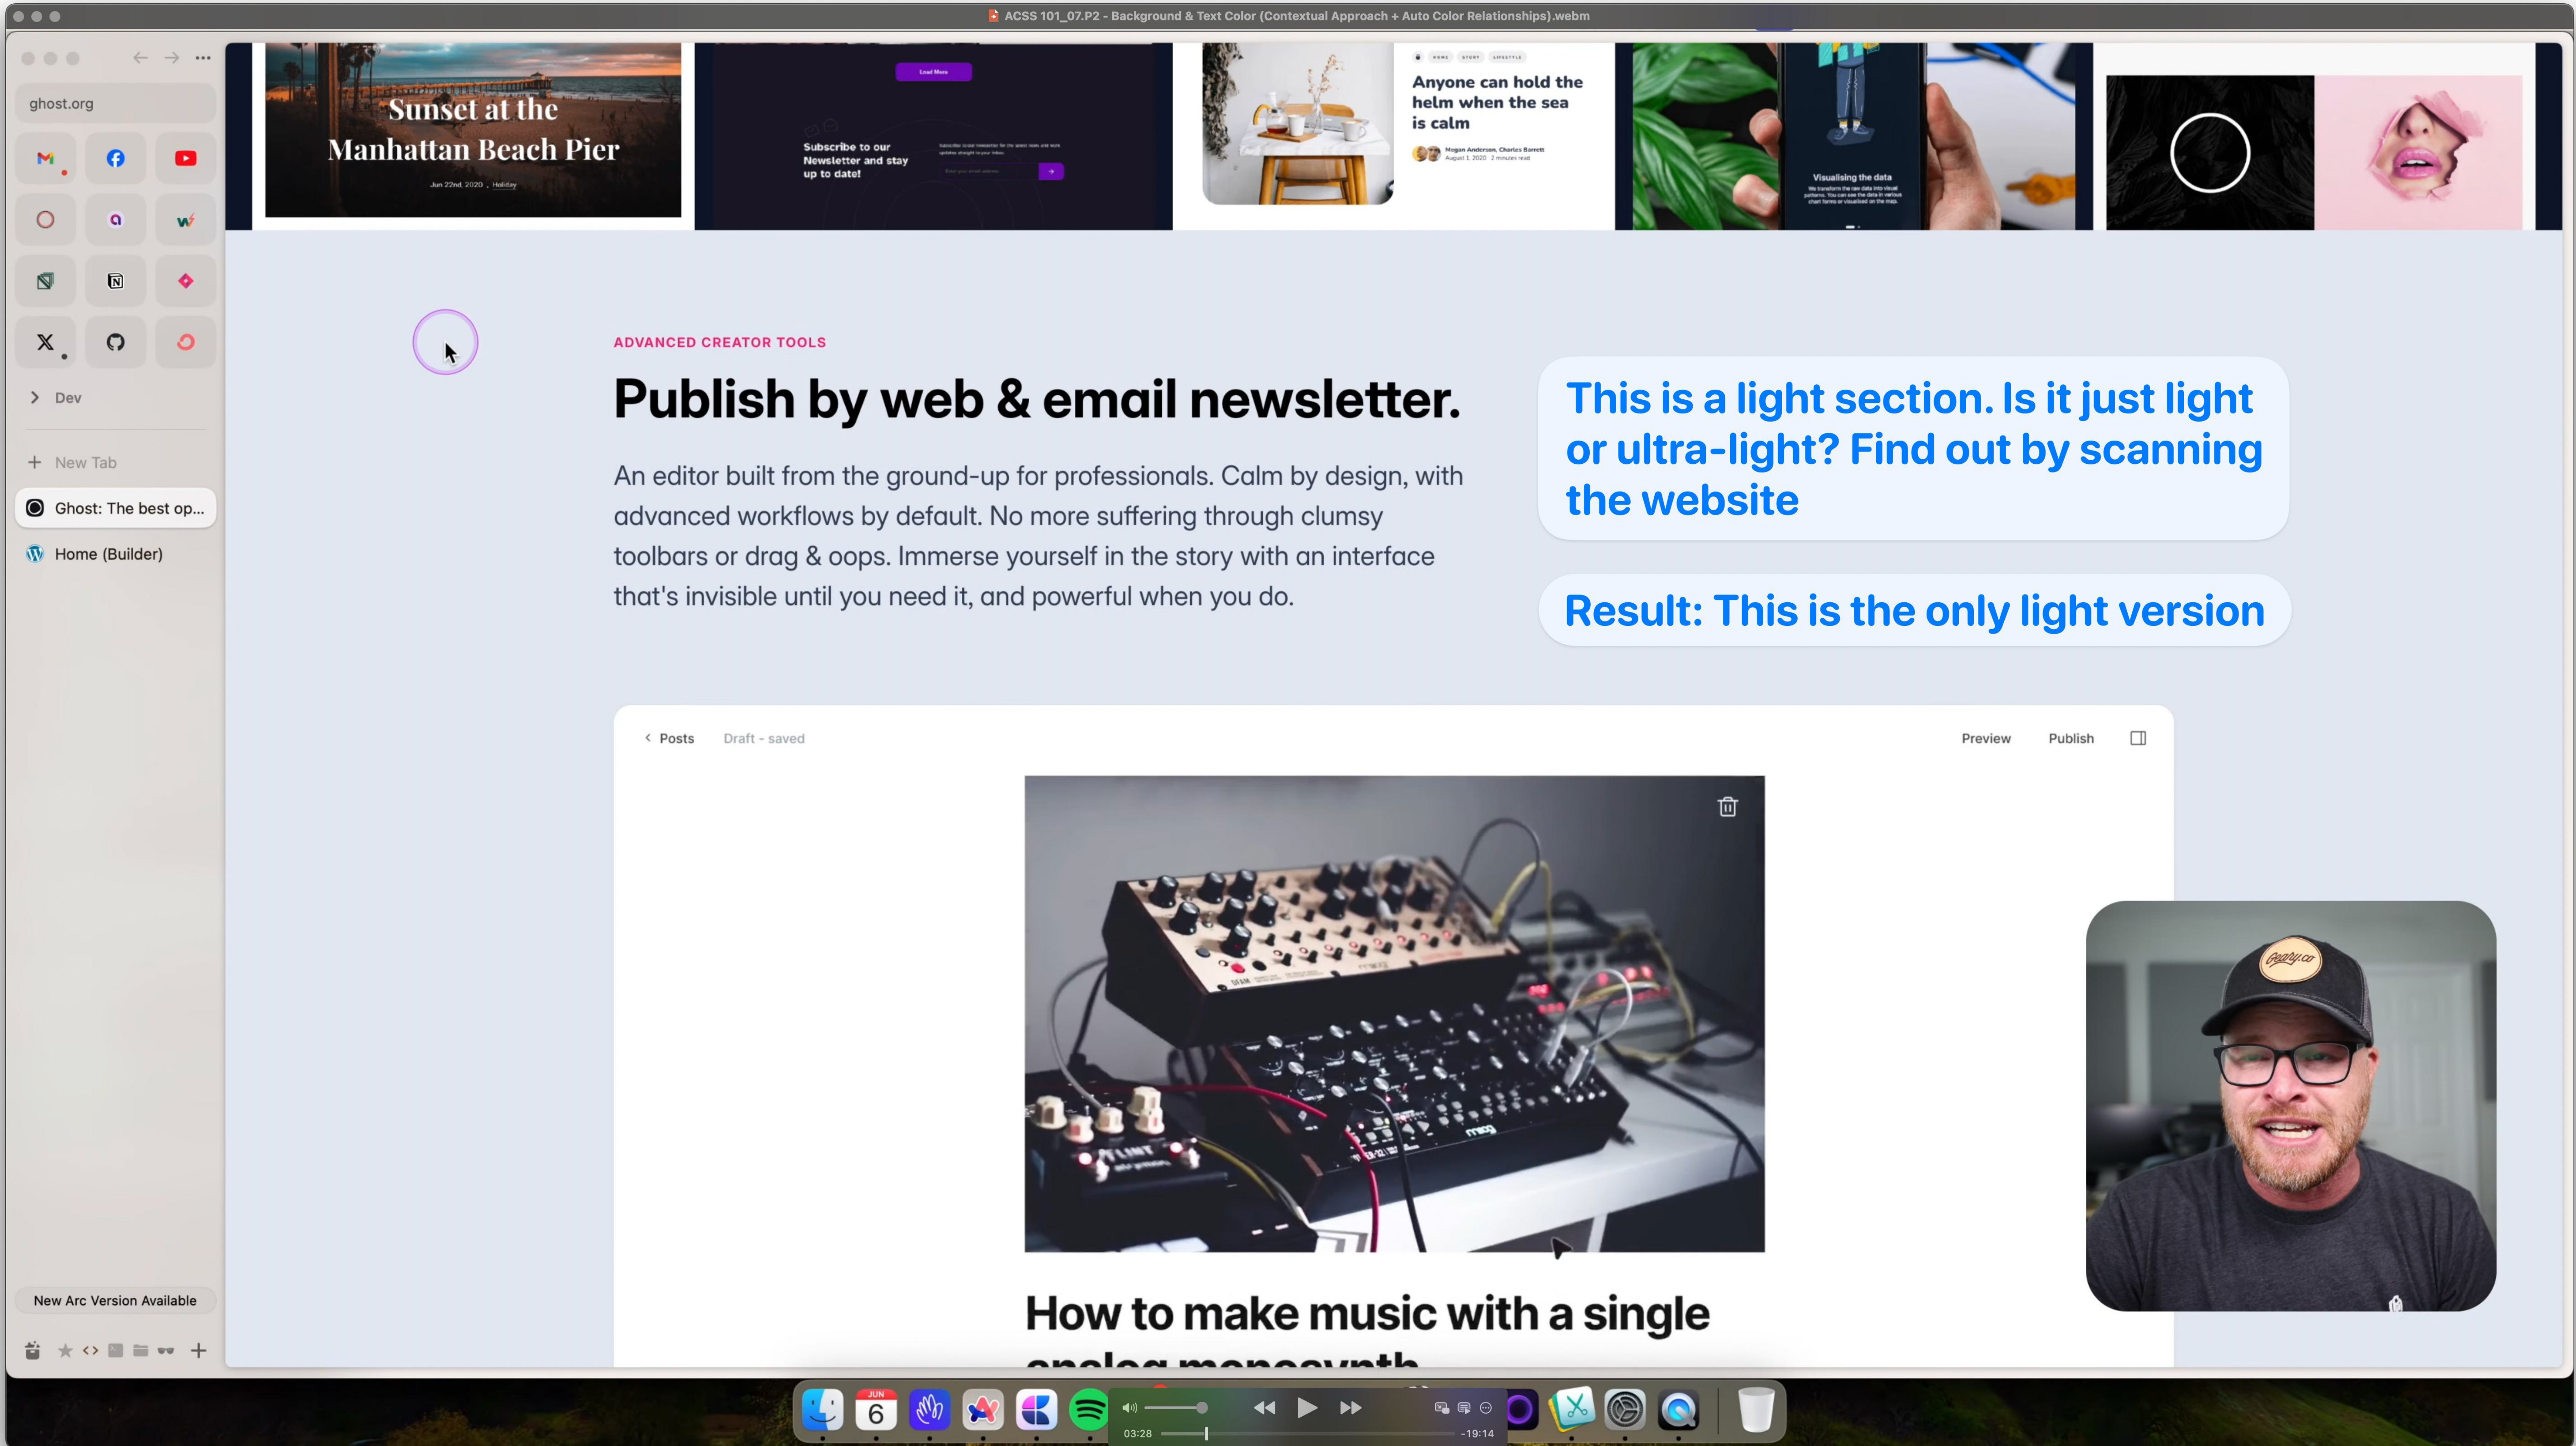

A product you can depend on.
Ghost is open source, independent,
and funded 100% by its users.

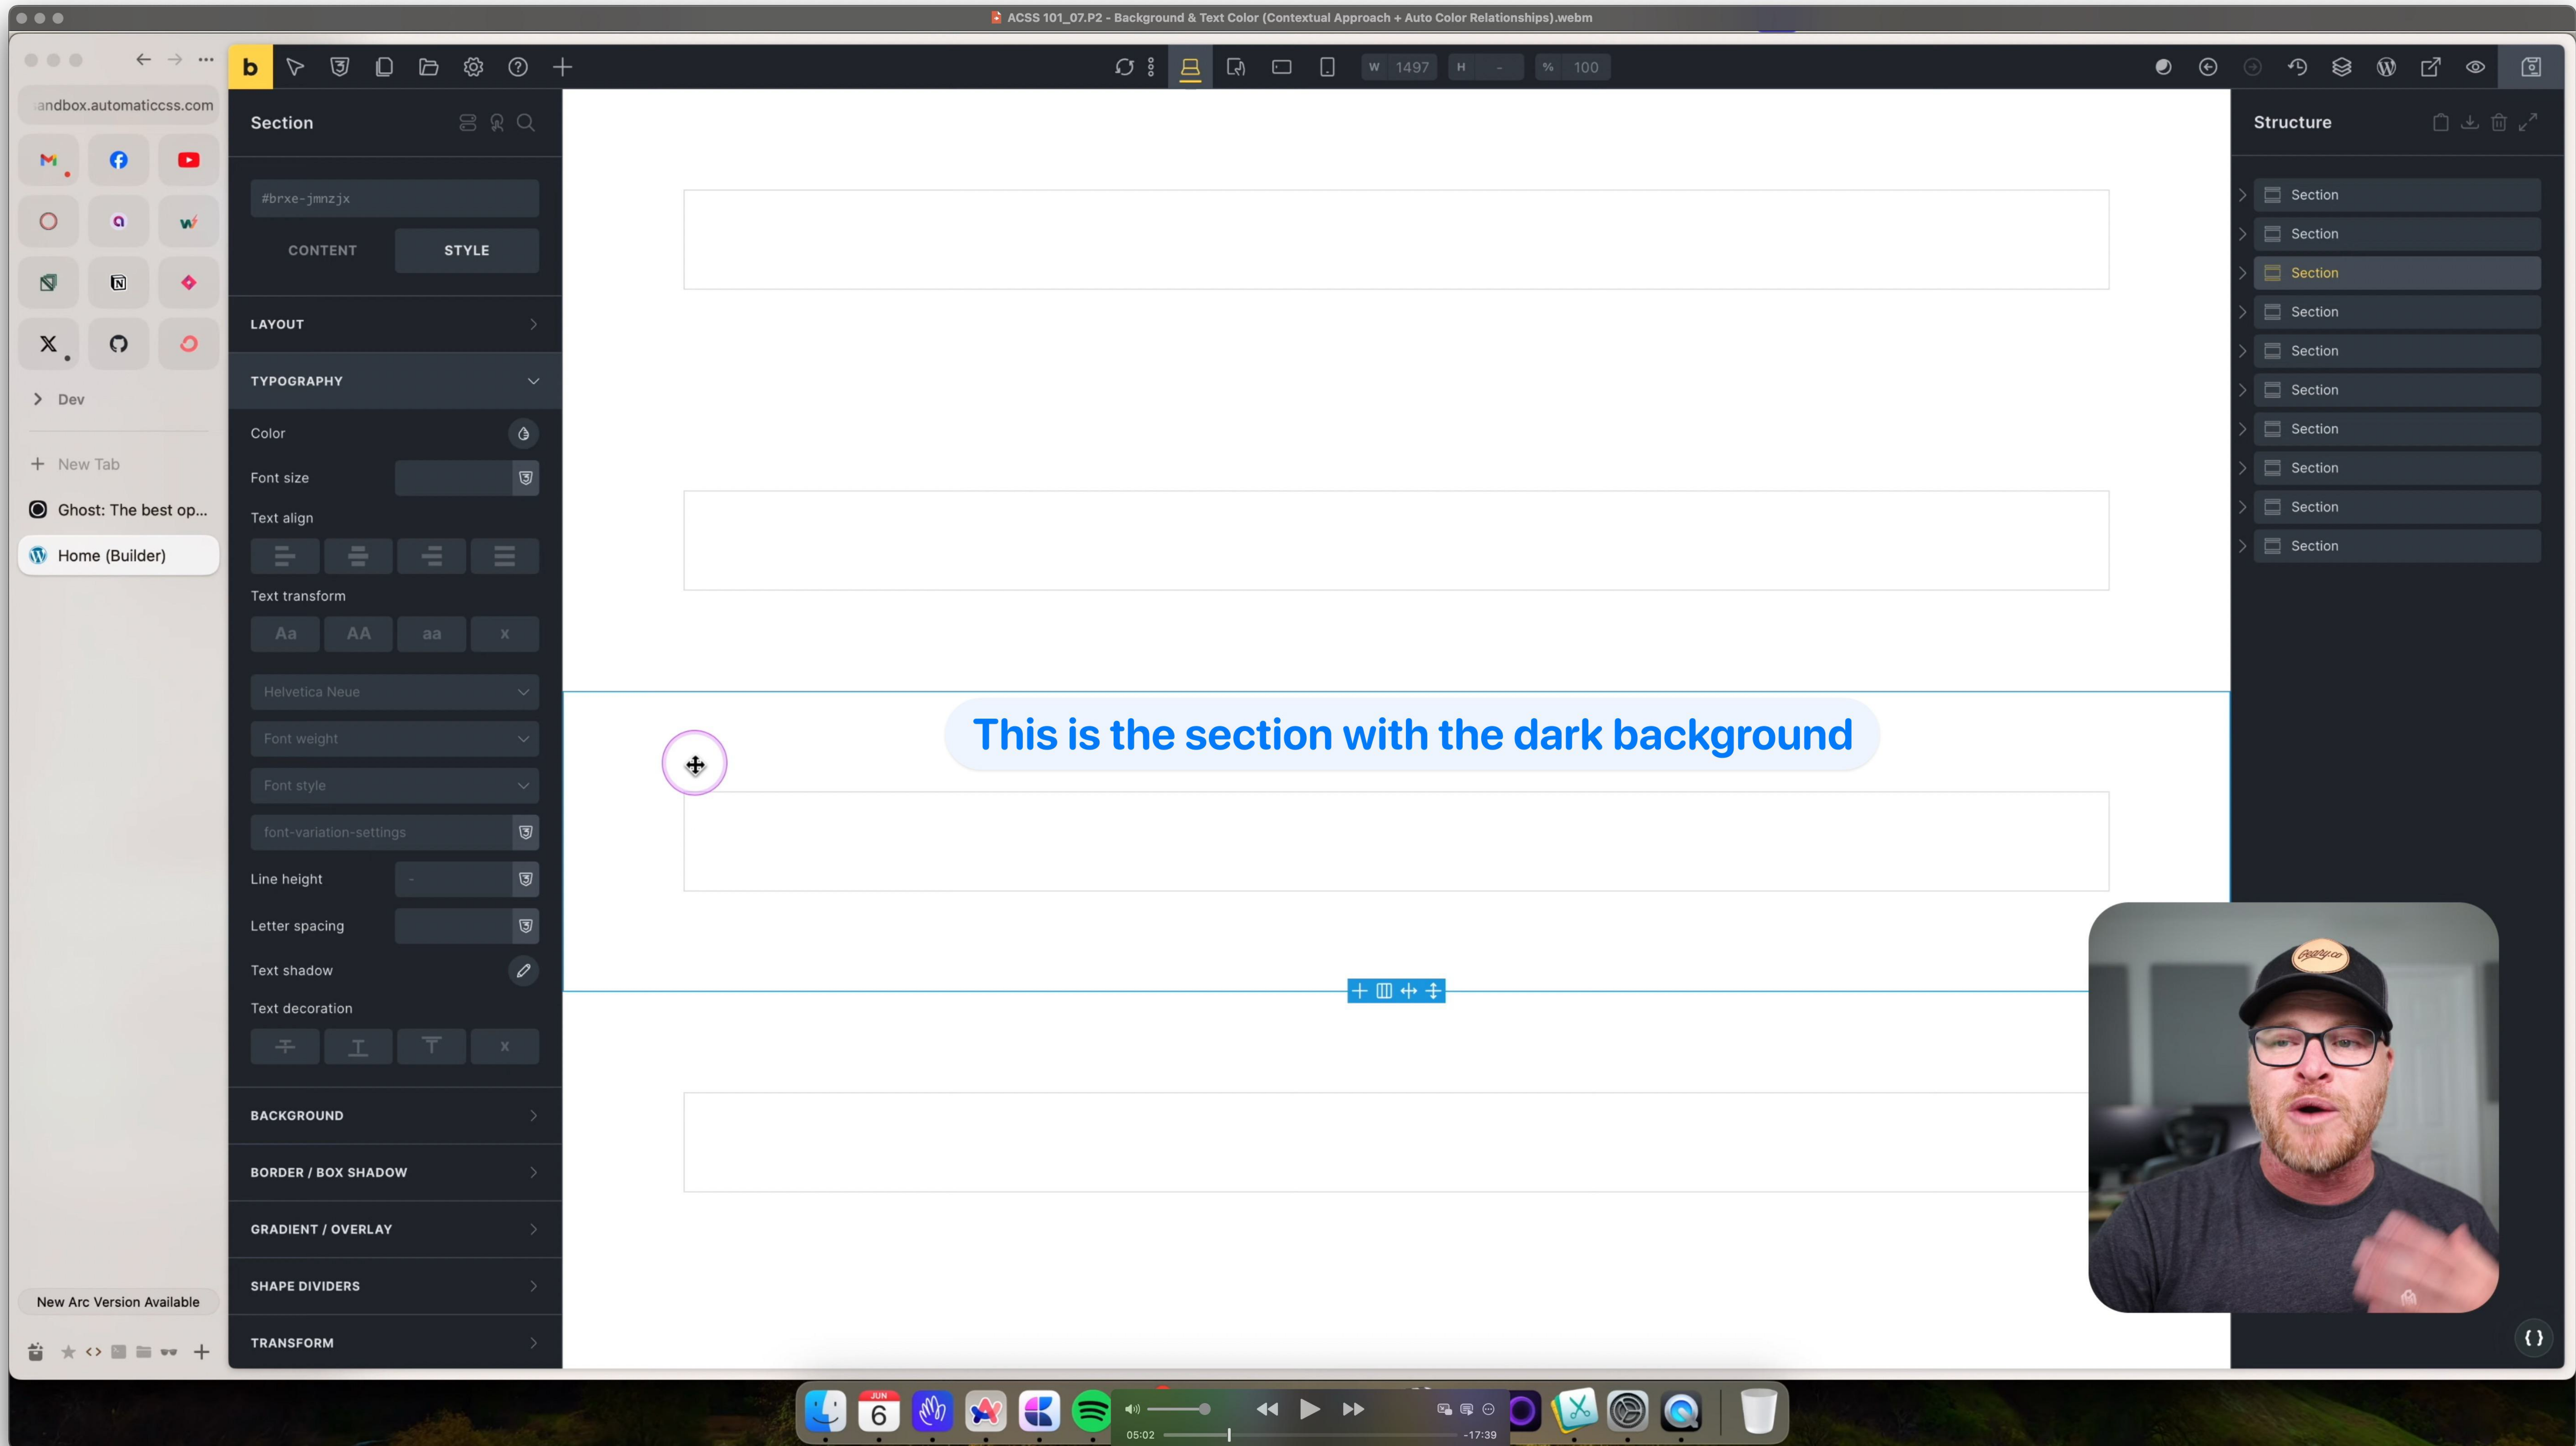

No investors. No bullshit.

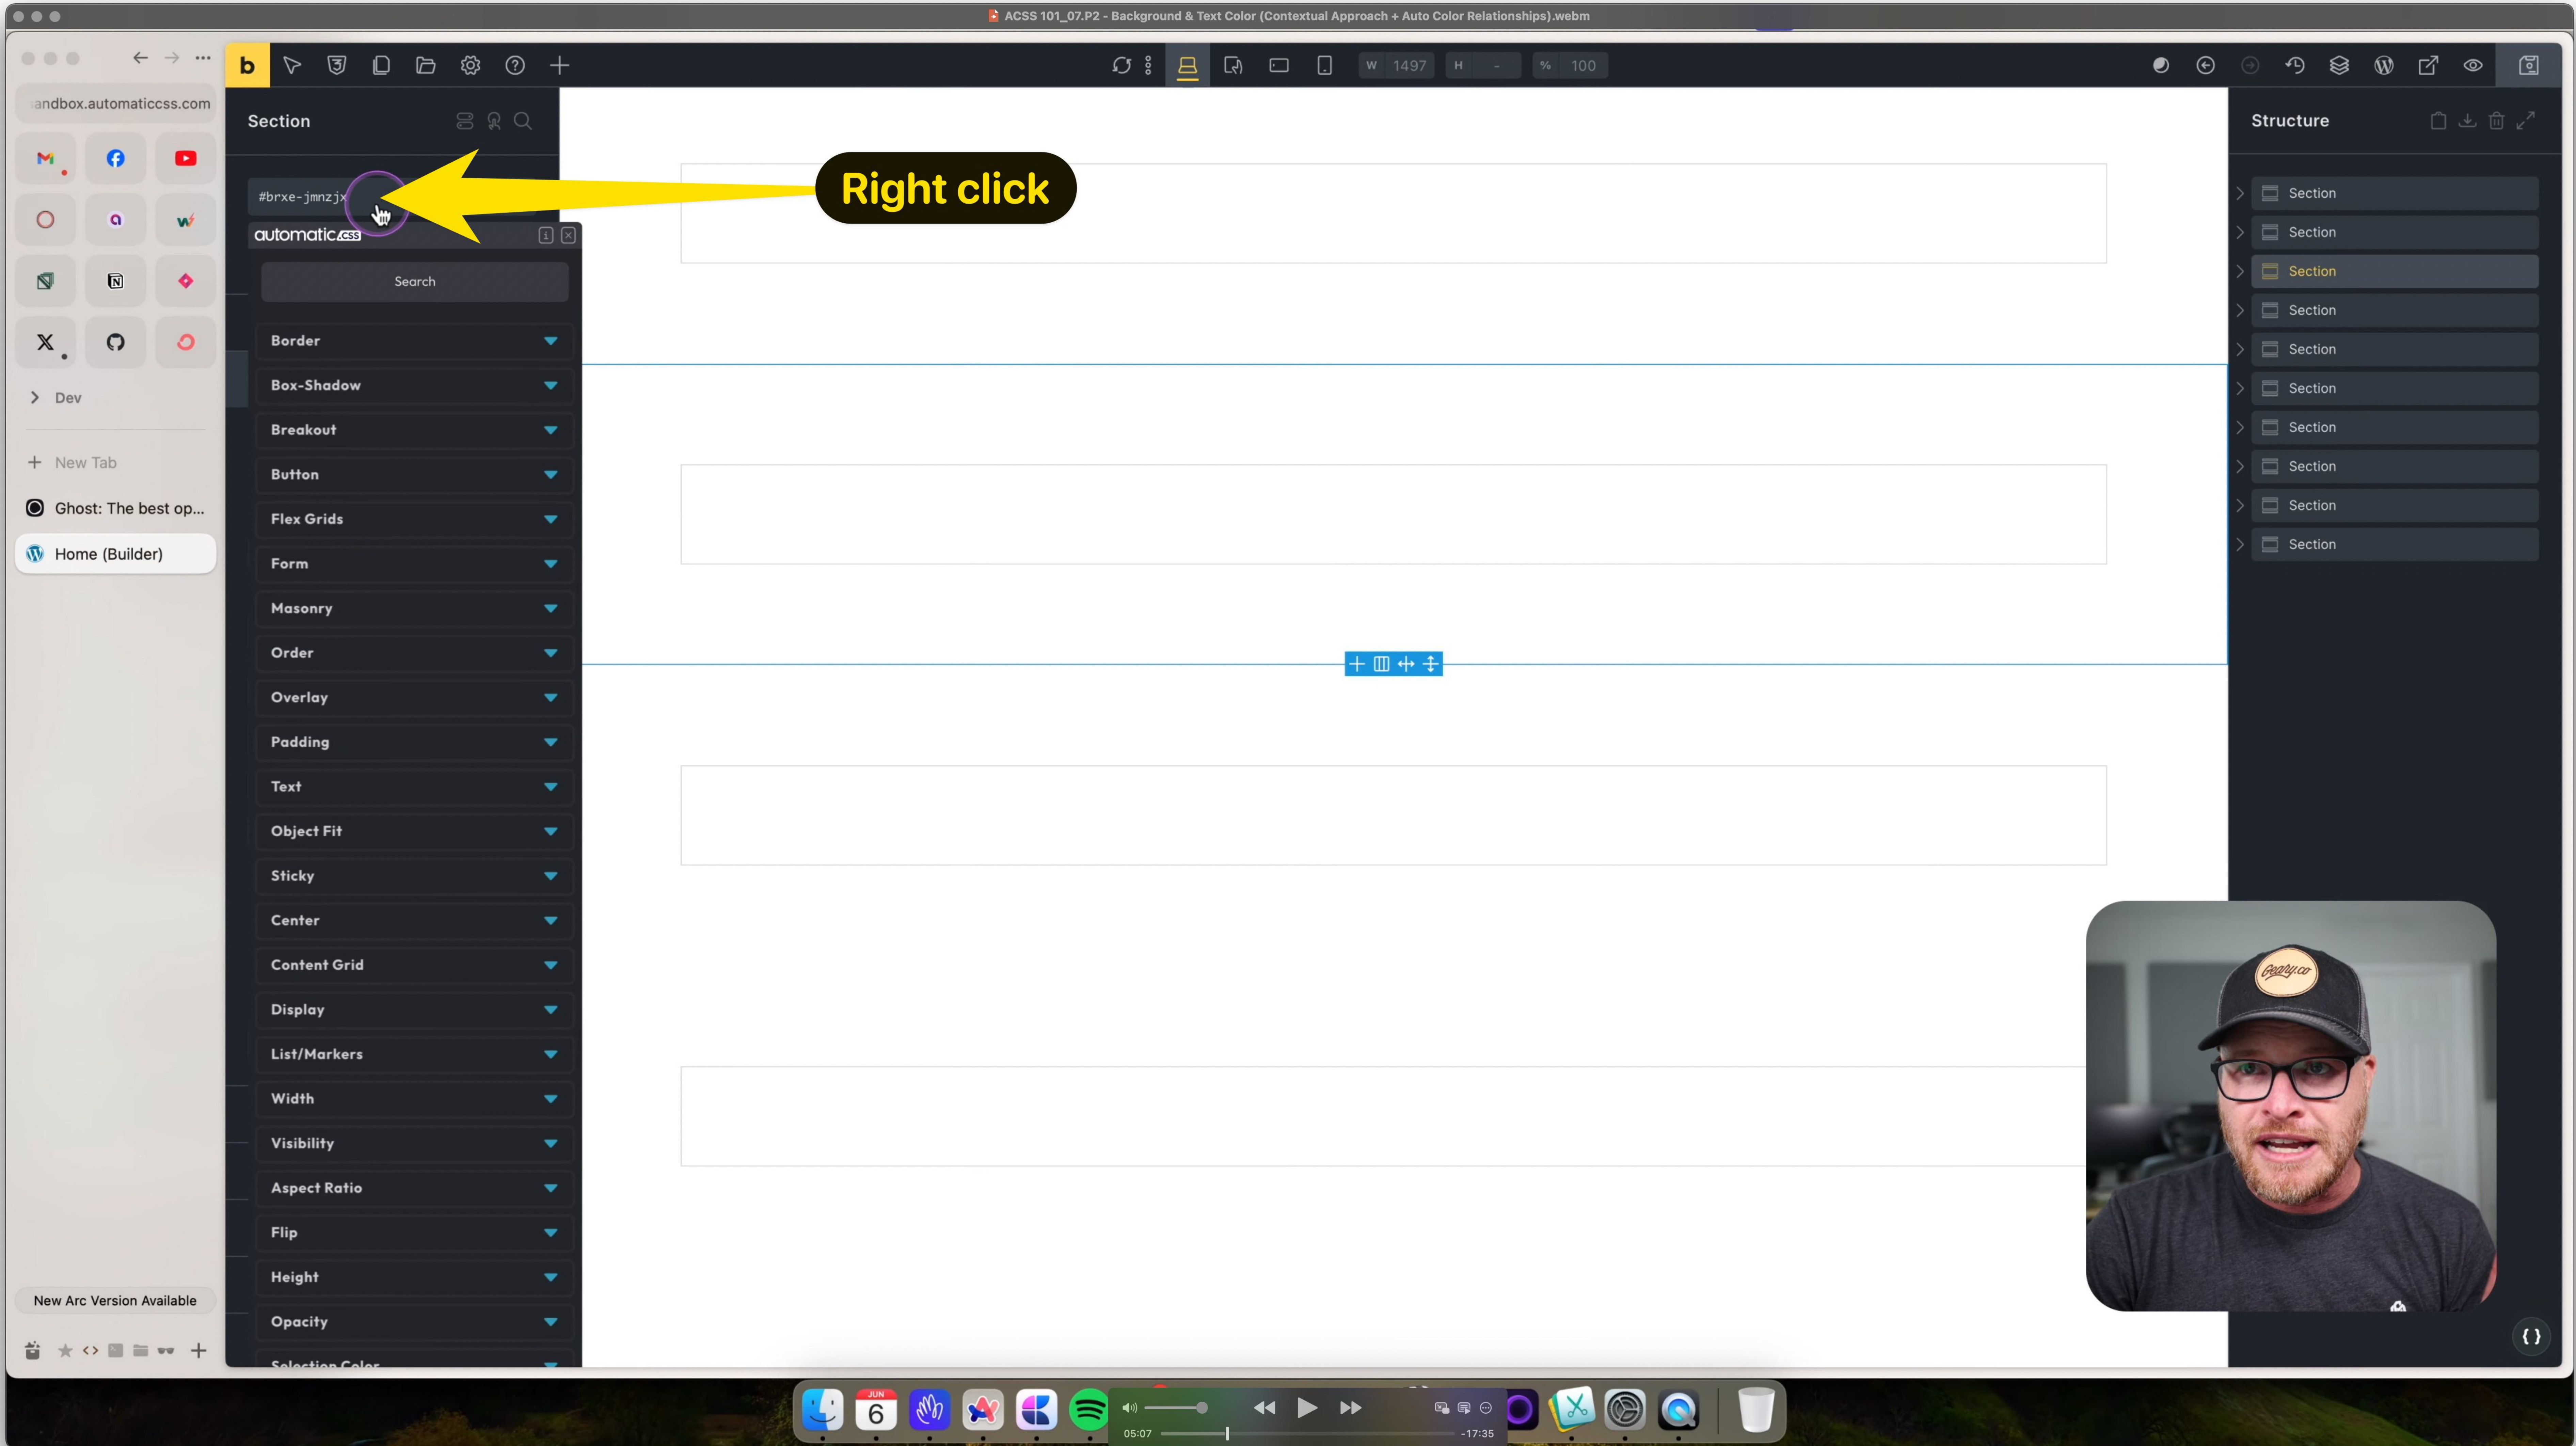

We scan the website and found a section
which is darker...

So this section is ultra-dark and the other is dark

The image shows a Mac desktop environment. The primary focus is the Arc browser window, which displays the Automatic CSS website. The browser's address bar shows the URL 'acss-101.sandbox.automaticcss.com'. The website's interface includes a dark sidebar on the left with a search bar and a list of settings categories: Layout, Color Palette, Typography, Spacing, Buttons & Links, Background & Text (highlighted with a purple circle), Borders & Dividers, Additional Styling, Frames, Form, Global SCSS, Options, Cheatsheet, and Deprecated. The main content area of the browser shows a series of horizontal bars in alternating light gray and dark gray colors. In the bottom right corner of the browser window, there is a small video call window featuring a man with a beard and glasses wearing a black cap. The macOS dock is visible at the bottom of the screen, containing icons for various applications including Finder, Calendar (showing June 6), Photos, Messages, App Store, Spotify, and several utility icons. The system status bar at the very bottom indicates the time as 06:43 and the battery level as 15:59.

A Rich Life with Less Stuff | the Minimalists

When tech brands get illustration right

Visualising the data

My husband's the one data visualization person. You can use the data to make charts, forms or visualized on the map.

A bold, minimal theme for Ghost, focused on clean typography & beautiful imagery

ADVANCED CREATOR TOOLS

Publish by web &

In the very most cases there are dark and light text colors on a website. Some can be considered as accents which have their own custom color

An editor built from the ground-up for professionals. Calm by design, with advanced workflows by default. No more suffering through clumsy toolbars or drag & oops. Immerse yourself in the story with an interface that's invisible until you need it, and powerful when you do.

One voice at a time – think twice

There are multiple ways that you can go about recording music with a monosynth. You can use a daw sampler like Ableton's Simpler to play the samples and immediately go full polyphonic – the limitation is that you can only have one voice at a time. Or you can use a single synth and play the melodies and loops (or use a daw sampler to load them from the beginning to the end with a daw, and use your creativity you can actually get [drum sounds](#), [leads](#), [basses](#), [pads](#), [fx](#) and [vocals](#) on a single synth. **Never stop experimenting!** You can also choose, if you synth doesn't have presets – e.g. if you use a hardware synth, you won't be able to re-load the same sound. So every moment is unique.

GROW YOUR AUDIENCE

Transform those clicks into contacts.

Light

Until now, building an indie publication with memberships and subscriptions has been difficult and complicated.

Ghost makes it easy, with native signup forms that turn anonymous views into logged-in members.

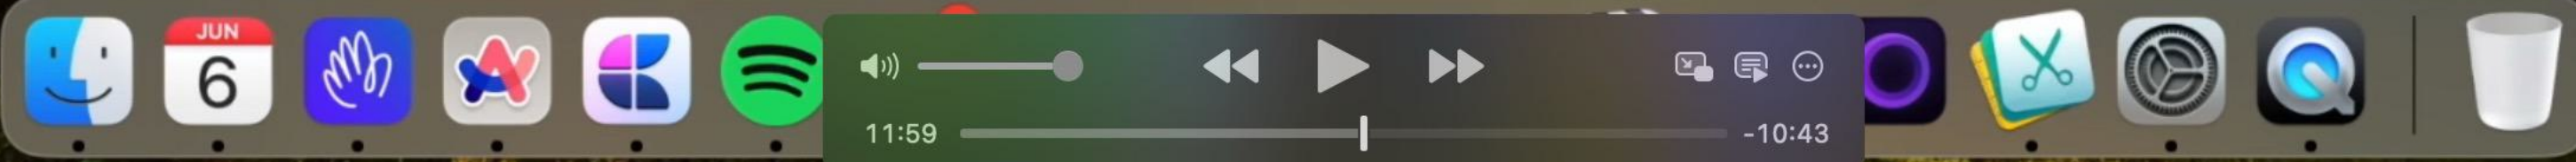

Light Muted

Allow people to sign up for free, or purchase a paid subscription to support your work across monthly and yearly premium tiers.

Hello, new friends.

RUN YOUR BUSINESS

The image is a screenshot of a web browser window displaying a design tool interface. The browser's address bar shows 'sandbox.automaticcss.com'. The design tool has a dark-themed sidebar on the left with various icons and a 'Basic Text' panel. The main canvas area is white and contains a heading 'I am a heading' and a paragraph of placeholder text. A video inset in the bottom right corner shows a man with a beard and glasses, wearing a cap, speaking. The browser's status bar at the bottom shows the time as 13:13 and the date as JUN 6.

The screenshot displays the Arc browser interface with the Automatic CSS Builder extension. The interface is organized into three main sections:

- Left Sidebar:** Contains navigation links (Home, Dev, New Tab) and social media icons (Google, Facebook, YouTube, etc.).
- Central Panel:** Features the 'Backgrounds & Text' settings. The 'Container' section is active, showing a heading 'I am a heading' and placeholder text. The 'Backgrounds & Text' settings are expanded, showing color and text options. The 'Light Muted' color is highlighted.
- Right Panel:** Displays the 'Structure' tree, showing a hierarchy of components like Section, Container, Heading, and Basic Text.

A video call window is visible in the bottom right corner, showing a man wearing a cap and glasses.
