

Accent Heading

BEM = (B)lock__(E)lement--(M)odifier

I am a heading

Here goes your text ... Select any part of your text to access the formatting toolbar.

This is just placeholder text. Don't be alarmed, this is just here to fill up space since your finalized copy isn't ready yet. Once we have your content finalized, we'll replace this placeholder text with your real content.

The Icon

The video shows a tutorial on the ACSS (Automatic CSS) workflow. The main interface is a web browser displaying a grid of feature cards. The left sidebar contains the 'Feature Card' settings, including 'CONTENT', 'STYLE', 'GRID ITEM', and 'HTML tag'. The central panel shows the 'ACSS' settings, including 'Automatic Card', 'Mode', 'Rename Classes', 'Detected Elements', and 'Apply Classes?'. The right sidebar shows the 'Structure' panel. The video feed in the bottom right corner shows the presenter, a man wearing a cap and glasses.
