

The image is a screenshot of a web browser window. The top bar shows the title "ACSS 101_16 - Content Grid (Basics).webm". The left sidebar contains a "Section" panel with a search bar, a "CONTENT" tab, and a "STYLE" tab. Below these are various settings like "Query loop", "HTML tag", "Display", "Flex wrap", "Direction", "Align self", "Align main axis", "Align cross axis", "Column gap", "Row gap", "Flex grow", "Flex shrink", "Flex basis", and "Order". The main content area displays a video player with a title "Introduction to Content Grid" and a description "Content Grid is a modern Grid-based layout structure with specifically defined content zones for maximum layout flexibility." Below the description is a list of bullet points: "Content grid utility classes", "Content grid placement with CSS (grid-column)", "Full Zone", "Feature & Feature-Max Zones", and "Zone Combinations". The right sidebar shows a "Structure" panel with a "Section" tab. The bottom status bar includes a "New Arc Version Available" notification and a video progress bar showing 00:45 / -14:00.

The image is a screenshot of the Arc web browser displaying a video player. The video content is a tutorial titled "Introduction to Content Grid". The video player interface includes a top bar with navigation icons, a sidebar on the left with social media links and a "Dev" section, and a right sidebar with a "Structure" panel. The "Structure" panel highlights the "Traditional Section" and "Image" elements. The video content itself features a title "Introduction to Content Grid", a list of features, a heading "I am a heading", and a large image of a smartwatch. A "View on frontend" button is visible in the top right corner of the video player. The browser's address bar shows the URL "waguespack-97m.zipwp.link". The browser's top bar shows the title "ACSS 101_16 - Content Grid (Basics).webm". The browser's sidebar shows a "New Tab" button and a "Content Grid (Build..." button. The browser's bottom bar shows a "New Arc Version Available" notification and a "Search settings ..." button.

Content Grid is a modern Grid-based layout structure with specifically defined content zones for maximum layout flexibility.

- Content grid utility classes
- Content grid placement with CSS (grid-column)
- Full Zone
- Feature & Feature-Max Zones
- Zone Combinations

Question for the traditional grid:

What needs to happen if you want the picture span from edge to edge?

It seemed to work but we created another problem:

On smaller screens the section has no gutter anymore

The screenshot displays the Arc browser interface. On the left, there's a sidebar with social media links (Discord, Facebook, YouTube, etc.) and a settings panel. The main area shows a video player with a grid layout. The video content features a grid with a black background and a watch image. The interface includes a sidebar with social media links, a settings panel on the left, and a structure panel on the right. The video player has a progress bar at the bottom.

Content Grid

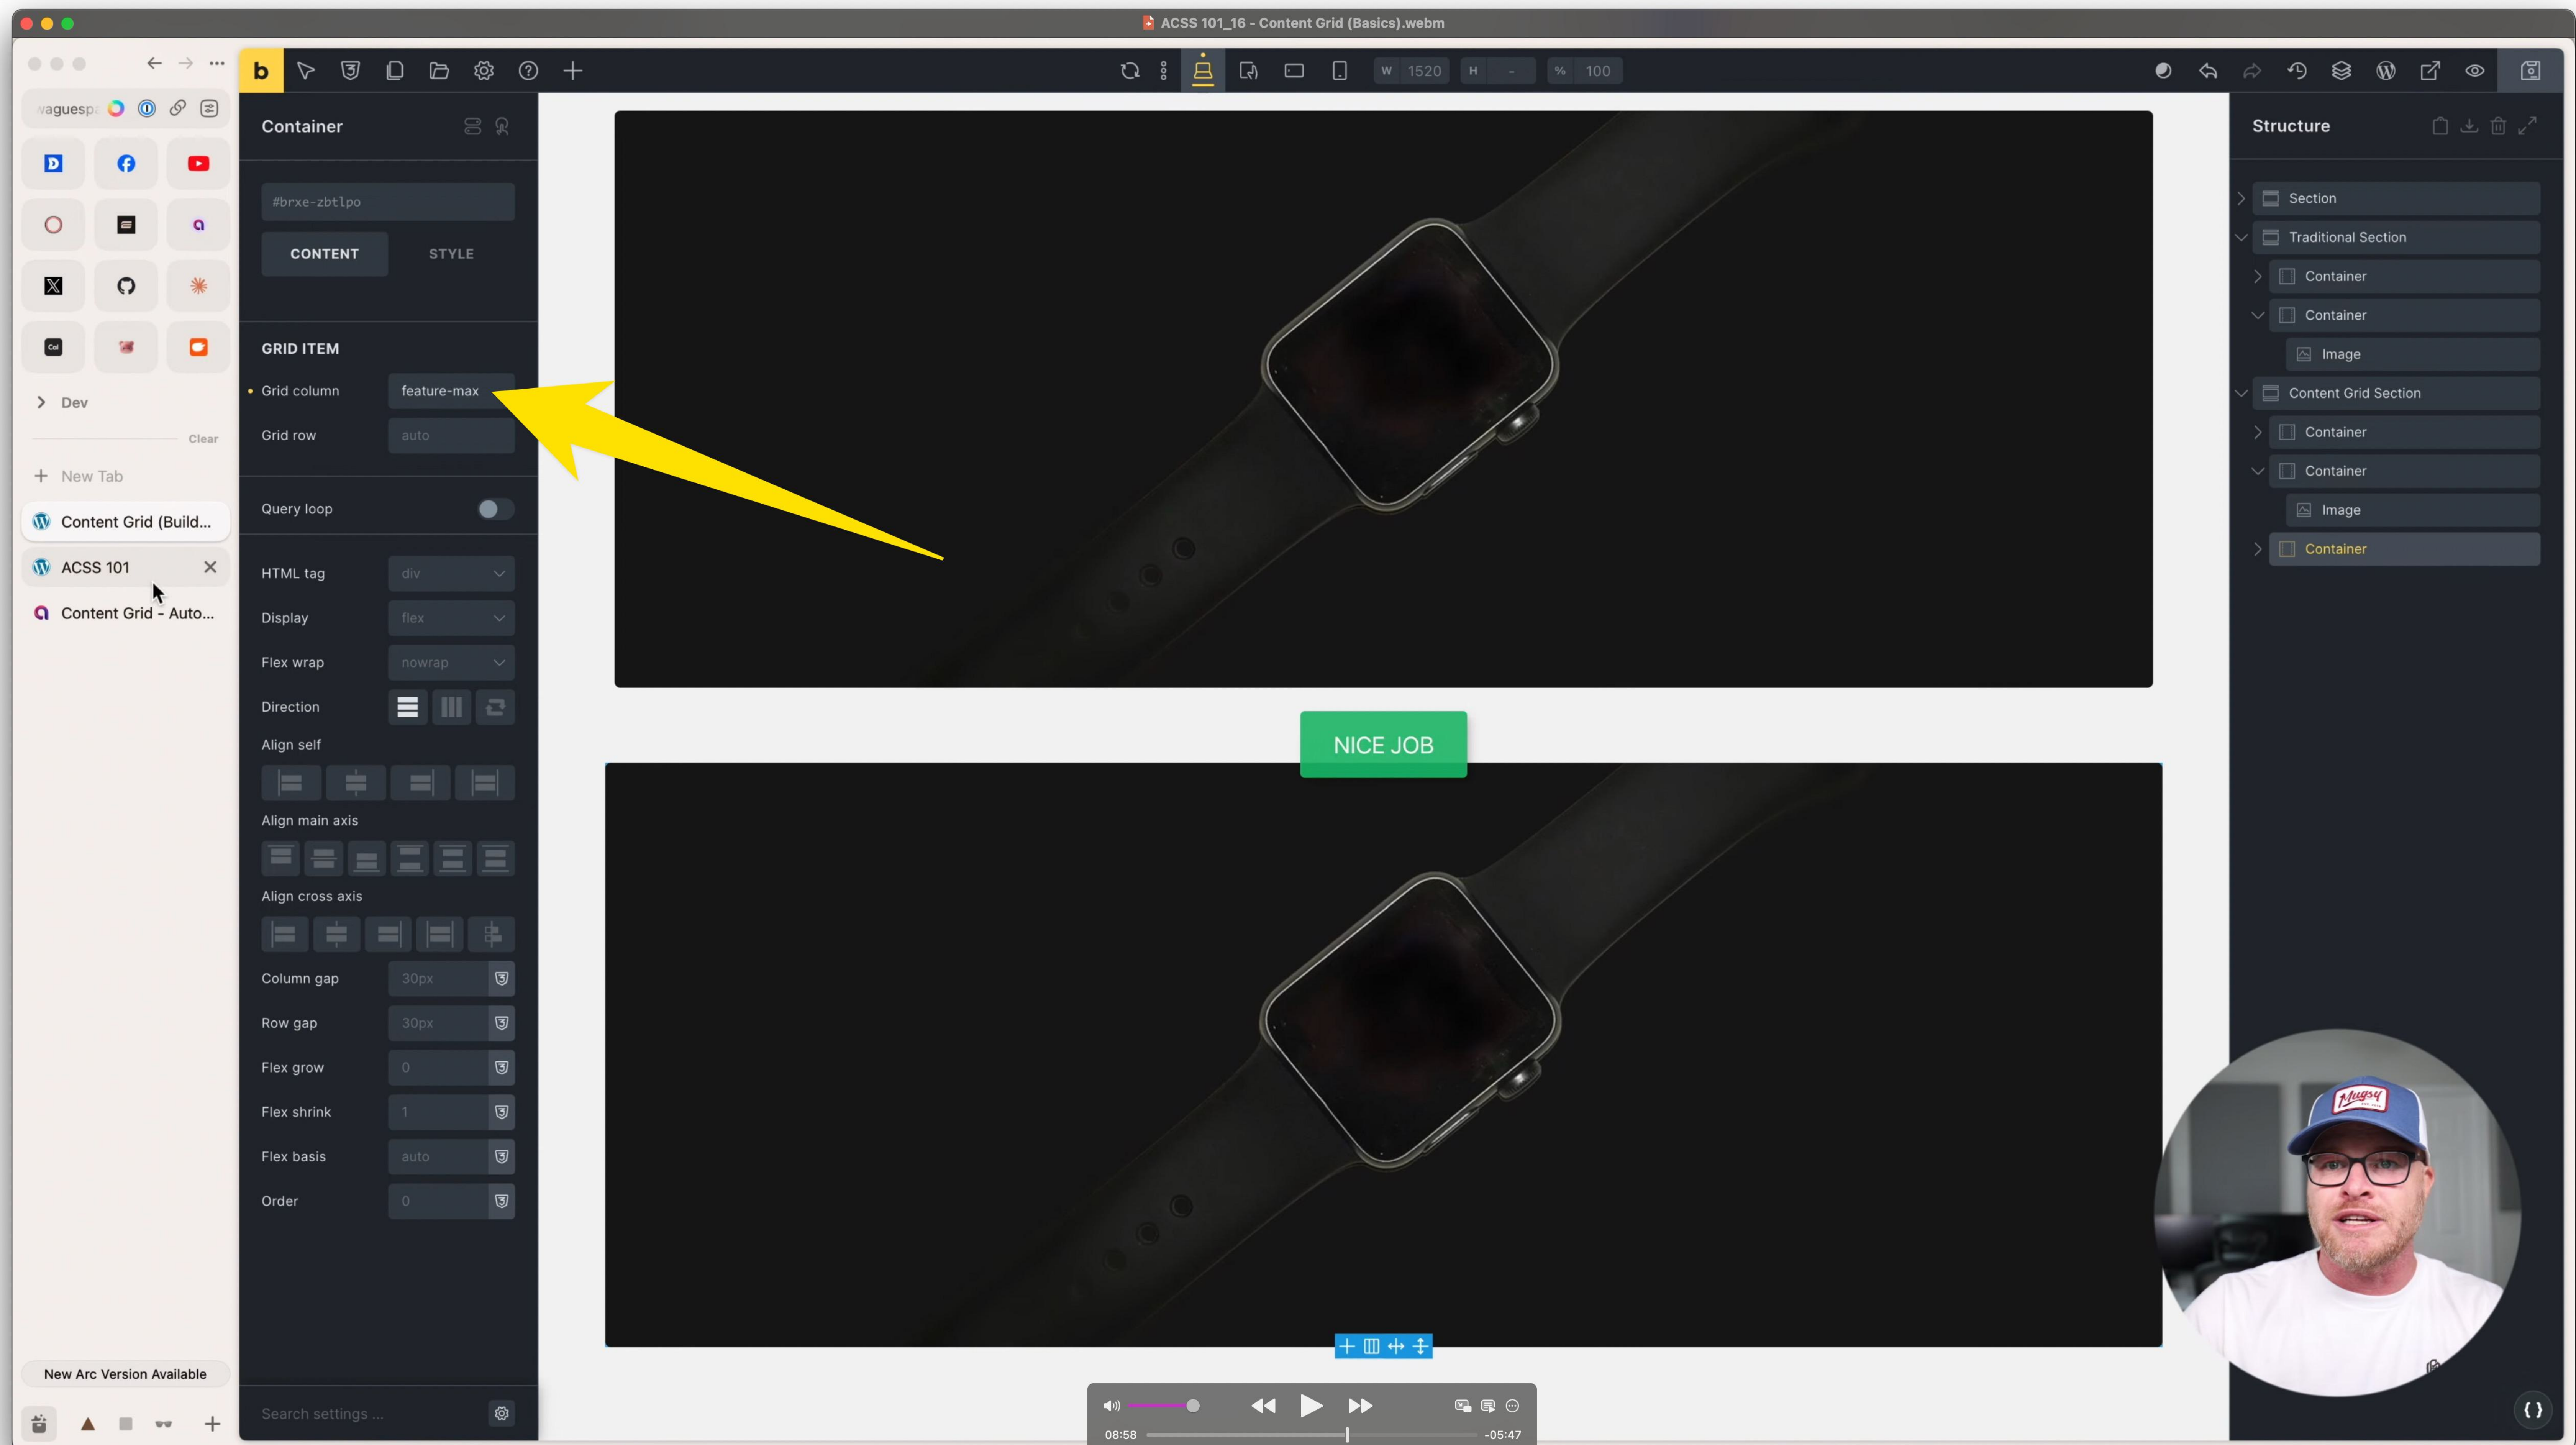

Content Grid presents a new paradigm for content layouts. Using advanced CSS Grid techniques, Automatic.css offers users a powerful way to vertically layout content using “zones.”

The screenshot shows the Arc browser interface. The top bar includes navigation controls and a search bar. The main content area displays a website being edited. A blue heading "I am a heading" is visible, followed by a large image of a smartwatch. The Content Grid sidebar on the right shows settings for the grid, including a yellow highlight around the "Content Grid" section and its settings. The bottom of the screen shows a video player with a progress bar and a notification for a new Arc version.
