My templates

Disable default templates

If no template conditions are set Bricks shows published templates (header, footer, etc.) on the frontend of your site. Select this setting to disable this behavior. Make sure to set template conditions instead.

Public templates

Enable to make your templates public and viewable by anyone online. Disable to allow only logged-in users to view your templates.

My Templates Access

Allow other sites to browse and insert your templates from their template library. Restrict template access via "Whitelist URLs" and "Password Protection" settings below.

Whitelist URLs

Only grant access to your templates to the websites entered above. One URL per line.

Password Protection

Password protect your templates.

Remote templates

Load templates from any another Bricks installation you have access to in your template library.

Remote templates URL

https://bricks.getframes.io

Make sure the remote website entered above has granted you "My Templates Access".

Remote Templates Password

Copy & paste the "My Templates Access" password provided by the remote site in here.

Miscellaneous

Convert templates

Convert template on import/insert from Container to new layout elements structure (Section > Container > Block / Div).
