Technically, this is a card in the HTML article. It is a standalone content element that could be found anywhere on the web page.

However, if the card is used in another context (e.g. team member), it is part of a list!

The image should never be a link, as this would affect accessibility (screen reader).

Typically, however, the headline is a link.

Ideally, however, such cards should be created in a repeater. The cards are then custom post types and can be repeated as often as desired with different content.
