Everything you are looking for in a time-tracking app...

The darkest color on the website can be named the 'Base Color'

-Tracking

Billable Hours

Keep track of your earnings by defining the hourly rate on billable tasks and projects.

Powerful Reports

Get an overview of all your sessions and any time frames. View it as a chart or a list.

Jira Integrations

Keep your tasks and time in sync with a Jira Cloud and/or Jira Server accounts.

Smart Idling

Klokki will notice your absence from the Mac and provide options for when you get back.

Shortcuts

The app is built with keyboard shortcuts in mind and provides the option to set up your own.

Menu Bar Timer

Quickly access the timer from the menu bar at any moment and keep track of your time at a glance.

Native to Mac

We love the Mac and made Klokki true to macOS. So you already know how to use it.

Private by Design
