The image shows a screenshot of the WPCodeBox WordPress plugin interface. The main window is titled 'Edit SCSS snippet'. On the left, there's a sidebar with navigation links: Dashboard, Posts, Media, Pages, Comments, WS Form, Rank Math, Appearance, Plugins (3), Users, Tools, Settings, Automatic CSS, Meta Box, WPCodeBox (selected), Oxygen, Gridbuilder WP, FakerPress, and Collapse menu. The main editor area has a title 'Global CSS', a description field, and a code editor containing SCSS code:

```
.article-card {
padding: 2em;
}
```

. Below the code editor, there are settings for 'How to render the SCSS' (External), 'Minify Output' (disabled), 'Autoreload Changes' (enabled), 'Script Location' (Header), 'Snippet Order' (10), and 'Where to run the snippet' (Everywhere). On the right, there's a sidebar with 'Local Snippets' (Global CSS selected), 'JS UTM persistent', 'Custom SCRSET Image Sizes', 'Set Oxygen Stylesheet Text Size', and 'Cloud Snippets'. A circular inset image of a man with glasses is in the bottom right corner.

⏮ ⏪ ⏩ ⏭

-13:39 🔊 🔍

The screenshot displays a web browser window with two tabs: "WPCodeBox < Digital Gravy Train" and "Live Editing - Digital Gravy Train". The address bar shows the URL https://training.digitalgravy.dev/wp-admin/admin.php?page=wpcb_menu_page_php. The browser's bookmark bar contains various links like "Hey!", "Business", "Business Made Sim...", "Biz Dashboard", "Hosting", "Resources", "Personal", "Automatic CSS", "MarketingAutomation", "Automatic.css", "HelpScout", "Basecamp", "Facebook", "Geni.us", "InnerCircle", "Automatic.css Com...", "Discord", "Inspiration", "Crypto", and "SCSS".

The main interface is a WordPress-style dashboard for "Digital Gravy Training". The left sidebar lists navigation items: Dashboard, Posts, Media, Pages, Comments, WS Form, Rank Math, Appearance, Plugins (3), Users, Tools, Settings, Automatic CSS, Meta Box, WPCodeBox (highlighted), Oxygen, Gridbuilder WP, FakerPress, and Collapse menu. The top navigation bar includes "Digital Gravy Training", "3" notifications, "0" comments, "New", "WS Form", "Rank Math SEO", and "Automatic CSS". A user greeting "Howdy, Kevin Geary" is visible in the top right.

The central area is titled "Edit SCSS snippet". It features a left panel with settings: Title "Global CSS", Description (optional), "How to render the SCSS" set to "External", "Minify Output" toggle, "Autoreload Changes" toggle, "Script Location" set to "Header", "Snippet Order" set to "10", and "Where to run the snippet" set to "Everywhere". The main panel has tabs for "Enabled", "SAVE (Ctrl + S)", "UPLOAD TO CLOUD", "PREVIEW" (highlighted with an orange arrow), "FORMAT CODE (Ctrl + B)", and "DELETE". The code editor shows the following SCSS:

```
1 .article-card {  
2   padding: 2em;  
3   background-color: white;  
4   border-radius: 1em;  
5 }
```

To the right of the code editor is a preview window showing a live view of the changes. It displays a gray box labeled "160 x 65" and a larger white box labeled "1600 x 900" containing the following text:

Double-click this headline to edit the text.
This is a block of text.
Double-click this text to edit it.
[Double-click to edit link text.](#)

In the bottom right corner, there is a circular inset video of a man with glasses and a yellow t-shirt, likely the instructor. The bottom of the screen shows a video player control bar with a progress bar, a volume icon, and a timestamp of "-12:37".

The image is missing the round corners at the top because it covers the upper part of the card

The screenshot displays the WPCodeBox 'Edit SCSS snippet' interface. The snippet is titled 'Global CSS' and is set to be rendered 'Externally'. The SCSS code is as follows:

```

1 body {
2   background-color: white;
3 }
4
5 .article-card {
6   background-color: white;
7   border-radius: var(--radius-s);
8   overflow: hidden;
9 }
10 &__body {
11   padding: 2em;
12   display: flex;
13   flex-direction: column;
14   gap: 1em;
15 }
16
17 &__text {
18   line-height: 1.5;
19 }
20 }

```

A green tooltip 'hidden property value' is visible over the 'hidden' property on line 8. The left sidebar shows the WPCodeBox menu with options like Dashboard, Posts, Media, Pages, Comments, WS Form, Rank Math, Appearance, Plugins (3), Users, Tools, Settings, Automatic CSS, Meta Box, WPCodeBox (selected), Oxygen, Gridbuilder WP, FakerPress, and Collapse menu. The right sidebar shows a list of snippets: Local Snippets (Global CSS+, UTM persistent), Custom SCRSET Image Sizes, Set Oxygen Stylesheet Text Size, and Cloud Snippets. The bottom right corner features a circular profile picture of a man with glasses.
